

# Cashmanager RURAL

NZ's leading farm management and accounting software

- Much more than just a cashbook - Cashmanager RURAL is software that helps farmers plan physical activities and see the financial implications.
- Includes a Digital Dashboard summarizing your business key performance indicators
- It has specialised options for all main farming types including milk solids, livestock, crops
- Best farm budgeting and forecasting tools available – easy to learn and to maintain.
- Farm relevant reports such as EFS (Economic Farm Surplus) and stock reconciliation
- Easy to enter and code data
- Simple and accurate GST returns
- Uses non-accounting, farmer friendly terminology
- Used and recommended by Rural Bank Managers, Farm Accountants and Farm Consultants around New Zealand.

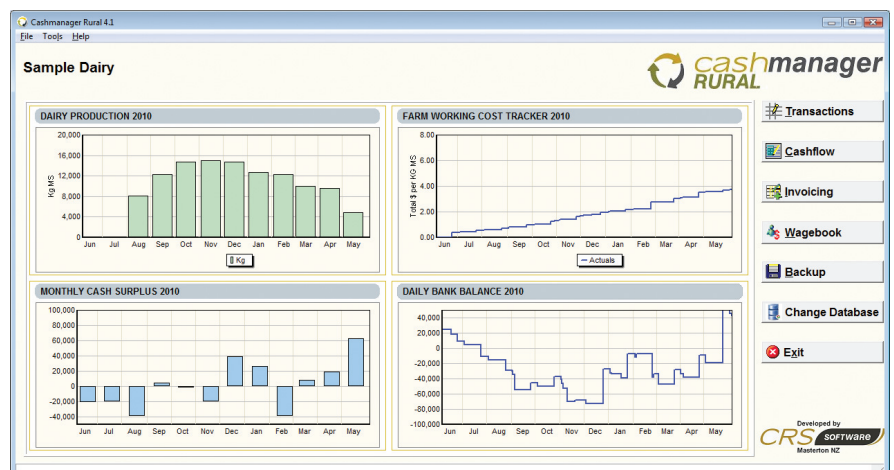

## About CRS Software

– the developers of Cashmanager RURAL

- Started in 1981, when computers were first being used in farming, and has been developing farm management software since then
- Company is based in Masterton and has 22 staff
- Cashmanager RURAL is New Zealand's leading brand of farm management and accounting software
- CRS Software works closely with Accountants, Banks, Farm Consultants and leading farmers to ensure the product meets your future needs.

To the right is our Dairy Farm example. To view screen shots of other farm types visit our news page at [www.crssoftware.co.nz](http://www.crssoftware.co.nz)

# Cashmanager CRT ONLINE

Has all the benefits of Cashmanager RURAL plus

- CRT store and card transactions arrive in your Cashmanager RURAL software - pre-coded to standard Cashmanager RURAL accounting and management codes.
- The more farm supplies you purchase on your CRT card, the less work you'll have to do on your accounts.
- Easy access from MyCRT.
- Ability to invite accountants, bankers, consultants or business partners to view your up-to-date information.
- Data security – your farm data is stored centrally. No need to worry about backing up your PC or losing essential management information.

## How it works

In just 3 easy steps

- 1 Start up Cashmanager Rural CRT Online
- 2 Your computer 'talks to Cashmanager RURAL central Server in Masterton
- 3 CRS Software Software extracts data from CRT, codes it up and loads automatically into your Cashmanager RURAL CRT ONLINE account.
